FROM MESSY TABLE AUDIO TO A STORY

PODCAST STORIES · STORYBOARD SERIES

VALUE FOR YOU ★★★★★

Web · runs in Adobe's cloud

THE 3 TOOLS INSIDE

ENHANCE SPEECH

Enhance tab → drop a file

Makes a phone in the middle of the table sound like a studio mic.

STUDIO (EDIT BY TRANSCRIPT)

Projects > Create

Edit audio like a text doc. Delete words = delete audio.

MIC CHECK

Mic Check

Test your own mic setup before recording narration or intros.

THE ASSEMBLY LINE

1. **Raw night**
   V: private folder
   original stays untouched
2. **Split**
   1-hour chunks
   faster uploads, fewer fails
3. **Enhance**
   strength 60-80%
   compare with the original
4. **Studio**
   transcript edit
   cut chatter, rules, PII
5. **Music + intro**
   Add music / Stock / Firefly
   licensed beds only
6. **Export**
   WAV master + MP3
   -16 LUFS target
7. **Private review**
   Frame.io link (11)
   you choose who hears it

PRIVACY RULE

Recordings + transcripts are private. Upload to your own Podcast account only, never share the project link, and delete cloud copies once you've exported.

RTX 3070?

Doesn't matter here: Podcast runs in the browser. Use Chrome or Edge and a wired connection for 1-hour uploads.

ADOBE PODCAST · PODCAST.ADOBE.COM

ENHANCE SPEECH: FIX THE MESS

PODCAST STORIES · STORYBOARD SERIES

VALUE FOR YOU ★★★★★

Web · runs in Adobe's cloud

STRENGTH SLIDER: WHERE TO START

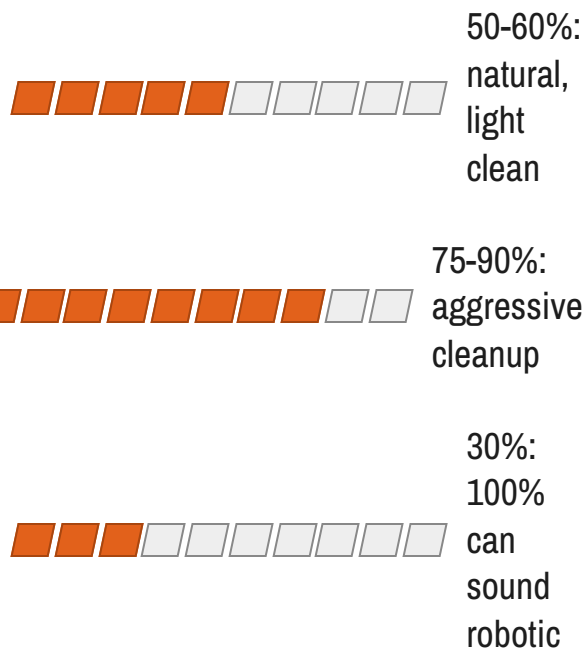

TABLE-RECORDING PROBLEM → FIX

PROBLEM	FIX
Room echo, far-away players	Enhance Speech, strength up
Music in the background	lower the **background** slider (if your version shows it)
Two people talking at once	keep the funny ones, cut the rest in Studio
Laughter drowned out	lower strength: Enhance can eat laughs
Mumbled dice math / rules talk	delete in the transcript
Real names, places, private talk	delete in the transcript (PII rule)
Robot voice / warble	strength down, re-export

A/B CHECK: TRUST YOUR EARS

PLAY ORIGINAL
10 seconds of a loud scene

▶

PLAY ENHANCED
same 10 seconds

▶

LAUGHS STILL THERE?
yes = export. no = lower

ADOBE PODCAST · PODCAST.ADOBE.COM

STUDIO: EDIT THE STORY LIKE A TEXT FILE

PODCAST STORIES · STORYBOARD SERIES

VALUE FOR YOU ★★★★★

Web · runs in Adobe's cloud

EDIT BY TRANSCRIPT

1 New project
Projects > Create
name: EP02 private

2 Add the audio
upload the enhanced file
transcript appears

3 Name speakers
click Speaker 1 → rename
use CHARACTER names

4 Cut
highlight text → Delete
audio goes with it

5 Music + breaks
Add music / drop a placeholder
scene changes

6 Enhance per track
Enhance speech
toggle if not done yet

7 Export
Export
audio + transcript

WHAT TO CUT (your edit rules)

CUT IT	KEEP IT
Character creation + rules talk	In-character lines + big moments
Dice math, "whose turn?"	Dice reveals with a reaction
Real names, addresses, private life	Table laughs after a great line
Phone checks, food breaks, side chats	The GM's scene-setting
Long silences	Short pauses before a punchline

RUNTIME TARGETS

Raw game night	3-4 hours
First cut	~90 min
Story episode	45-60 min (or split in 2)

TRANSCRIPT = STORYBOARD SOURCE

Export the edited transcript to your private V:\ folder. Turn it into a **beat sheet** (1 line per moment, character names only). Only the beat sheet goes to Firefly Boards (guide 01).
