   a 3D mockup of your window
   in a room with sunlight

IS IT WORTH YOUR TIME?

IF YOU WANT…	VERDICT
Flat pattern for cutting	skip: Illustrator does it
Photo-real client mockup in a room	maybe: Photoshop mockup is faster
3D sets for the animated series	yes: wood, metal, concrete materials for Blender sets
Glow / light-through-glass renders	yes, with Blender + a glass material

LOW PRIORITY

Come back after Firefly, Photoshop, Illustrator and Podcast feel easy. Substance materials need Blender or a Substance app to open.
